Peter Guzman
Manager, Customer and Field Services
RYPOS Inc.
40 Kenwood Circle
Franklin, Massachusetts 02038

Dear Peter Guzman:

The California Air Resources Board (CARB) staff has reviewed the RYPOS Inc. (RYPOS) in-use emissions testing compliance report for the verified RYPOS HDPF/C (designated family name CA/RYP/2007/PM3+/N00/ST/DPF01, CARB Executive Order DE-07-001-08) sent by email to CARB on June 20, 2023, titled, "In-Use Compliance Final Test Report (April 19, 2023)". Based on CARB staff's review of the emissions tests and functionality tests, staff finds that RYPOS passed the in-use compliance emissions testing verification requirements (Title 13 California Code of Regulations, section 2709) for the RYPOS HDPF/C. The verification CA/RYP/2007/PM3+/N00/ST/DPF01 is now in compliance with the regulation.

Thank you for participating in CARB's diesel emission control strategy verification program.

Should you have any questions or comments, please contact Dinh Quach, Air Pollution Specialist, at dinh.quach@arb.ca.gov.

Sincerely

Ajay Mangat
